EXPERIENCE

launchedIT

May - July 2016

Web Developer Intern

- Worked closely with clients to strategize and improve the flow and functionality of their company websites.
- Troubleshoot and presented solutions to specific client website challenges in company meetings.
- Designed, coded, tested, and debugged two pages that are now live on the company's server.
- Tested with web programming internship prior to applicable university coursework - challenged me to learn and adapt.

Spokane Public Schools

June-Aug 2015, July-Aug 2016

STEM Camp Leader

- Developed and implemented curriculum in computer programming for students in K-8 grade
- Differentiated instructions to meet the needs of the student.
- Created a scope and sequence ranging from basic block programming to Java and Python
- Integrated topics from university into curriculum giving students first hand insight into the rigor yet exceptional nature of programming.

Latah Creek Wine Cellars

June-Aug 2016

Cashier/Sales Associate

- Represented wine to customers in a knowledgeable and relaxed manner including tasting and point of sale.
- Facilitated wine productions to include sourcing wine elements from Germany, bottling, and facility maintenance.

Jensen Distribution

June-Aug 2013, May-Aug 2014

Order Selector

- Efficiently fulfilled customers' orders - autonomously performed product pulling, boxing, and shipment.
- Continually among the top five percent of employees in productivity.
